TEMSA's market share increases in the United States

TEMSA is in the center of attraction in US market

1000th TEMSA bus is being exported to USA

TEMSA presented its products at UMA Fair held in St. Louis in America from February 26 to March 2. TEMSA also realized bus sales in that exhibition. TEMSA will export its 1000th vehicle to the US in the following days.

At UMA fair, TEMSA received TS35 E and TS45 orders from San Francisco based company. TEMSA General Manager Dinçer Çelik, Marketing and International Sales Director Kadri Özgüneş and America Regional Sales Manager Deniz Çetin attended the exhibition.

TEMSA reaches its US market targets

Dinçer Çelik, General Manager of TEMSA, pointed that they are very proud of TEMSA buses' being in the center of attraction in UMA fair and said "We will meet the targets being pointed for the US market. TEMSA had a market share of 10 percent in 2016. Target of expanding TEMSA's vehicle park in the USA to 1.000 vehicles will be met in the near future. We will realize the production of our 1000th vehicle and export it to the US within a very short time."

100 TEMSA buses in Silicon Valley

Dinçer Çelik emphasized that being preferred by the world's leading technology companies is a very important indicator of TEMSA's production quality. "100 TEMSA buses run in Silicon Valley. This number will increase. TEMSA will continue to develop products for the US market and grow its market share" said Dinçer Çelik.
