Masats signs service agreement with SMRT

SMRT Automotive Services and Masats recently signed an agreement for SMRT to become Masats' Authorized Service Provider in Singapore. SMRT Automotive Services is a repair company that belongs to SMRT Corporation, the leading provider of multimodal transport in Singapore.

The signing ceremony took place at SMRT offices, with P V Venkatesan and Tan Kian Heong representing SMRT, and Frederic Solé and Axel Habermayer representing Masats.

Masats will offer regular training to SMRT employees, who will perform maintenance and repairs on their equipment for both their own and others' vehicles.

After years of collaborating with the local SMRT operator, and previously with the previous operator TIPS, Masats has become a touchstone in the Singaporean market. More than 800 vehicles in circulation in Singapore have Masats doors, mainly doors that open inward and electric sliding doors.

In 2001, Masats began to supply equipment for the local market, later reinforcing its relationship starting in 2011 with SMRT's acquisition of MAN vehicles with chassis made by the Malaysian company Gemilang.

With this agreement, Masats reinforces its services in the Asian market and secures its relationship with local operators, in order to offer the best post-sales service.
