Hyundai Motor's mobile artwork inspires tourists

Hyundai Motor's hosted an inspirational campaign in six of the world's most exciting cities, encouraging tourists to share their special memories of iconic locations. More than 55 million tourists were encouraged to engage with the inspirational artwork that is displayed on transport carrying visitors to top global tourist attractions in Istanbul, New York, Mexico City, Barcelona, Paris, and Singapore, making Hyundai a 'travel mate' for tourists' most precious moments.

In Istanbul, New York and Mexico City,

buses and trams carry stunning optical illusions echoing the vibrant cities, to inspire memories for tourists and locals alike. The creative mosaic artwork is composed of hundreds of tiny Hyundai logos, which form each city's iconic skyline when viewed

from a distance. For example, in New York, the famous Manhattan skyline is visible alongside Hyundai Motor's message: 'Take a step back. There is more of New York to be seen!'

Meanwhile in Barcelona, Paris and Singapore, travellers receive the intriguing message 'A New Experience Awaits'. In these cities, an eye-catching design adorns public transport in major tourist spots to introduce the recently launched compact SUV, the all-new Tucson, with buses displayed as gift-wrapped boxes delivering the newly unveiled car to iconic places.
