MAN: 50 Years of Progress

No single company has more experience than MAN. Since 1863, we have been designing and manufacturing engines for every type of application. Our commitment to innovation and excellence is unwavering. From marine to power generation, MAN engines are known for reliability, efficiency, and durability. Today, we continue to push the boundaries of what is possible, creating engines that are smarter, cleaner, and more efficient. MAN - the engine that drives the world forward.
